

## WALL PENETRATION/FIRE STOPPING

Easily transition through wall and floor penetrations with a fully fire rated entry. Cable bus can extend transversely through partitions or walls, including firewalls.

Supplied flanges protect against physical damage as the cable bus continuously passes through entry.

Fire rated bricks and sealant meet industry standards such as UL 1479, CAN/ULC-S115 and ASTM E814.

Fully designed to demonstrate reliability and compliance with established safety benchmarks.

### Key System Benefits

- 2hr - 4hr rating
- Inclusive of fire bricks
- Inclusive of fire rated sealant
- Inclusive of gasket wall entry flange
- Easy installation - no special tools required
- Halogen, asbestos, and solvent-free
- UL 1479, CAN/ULC-S115, ASTM E814

Maintain short circuit rating all throughout

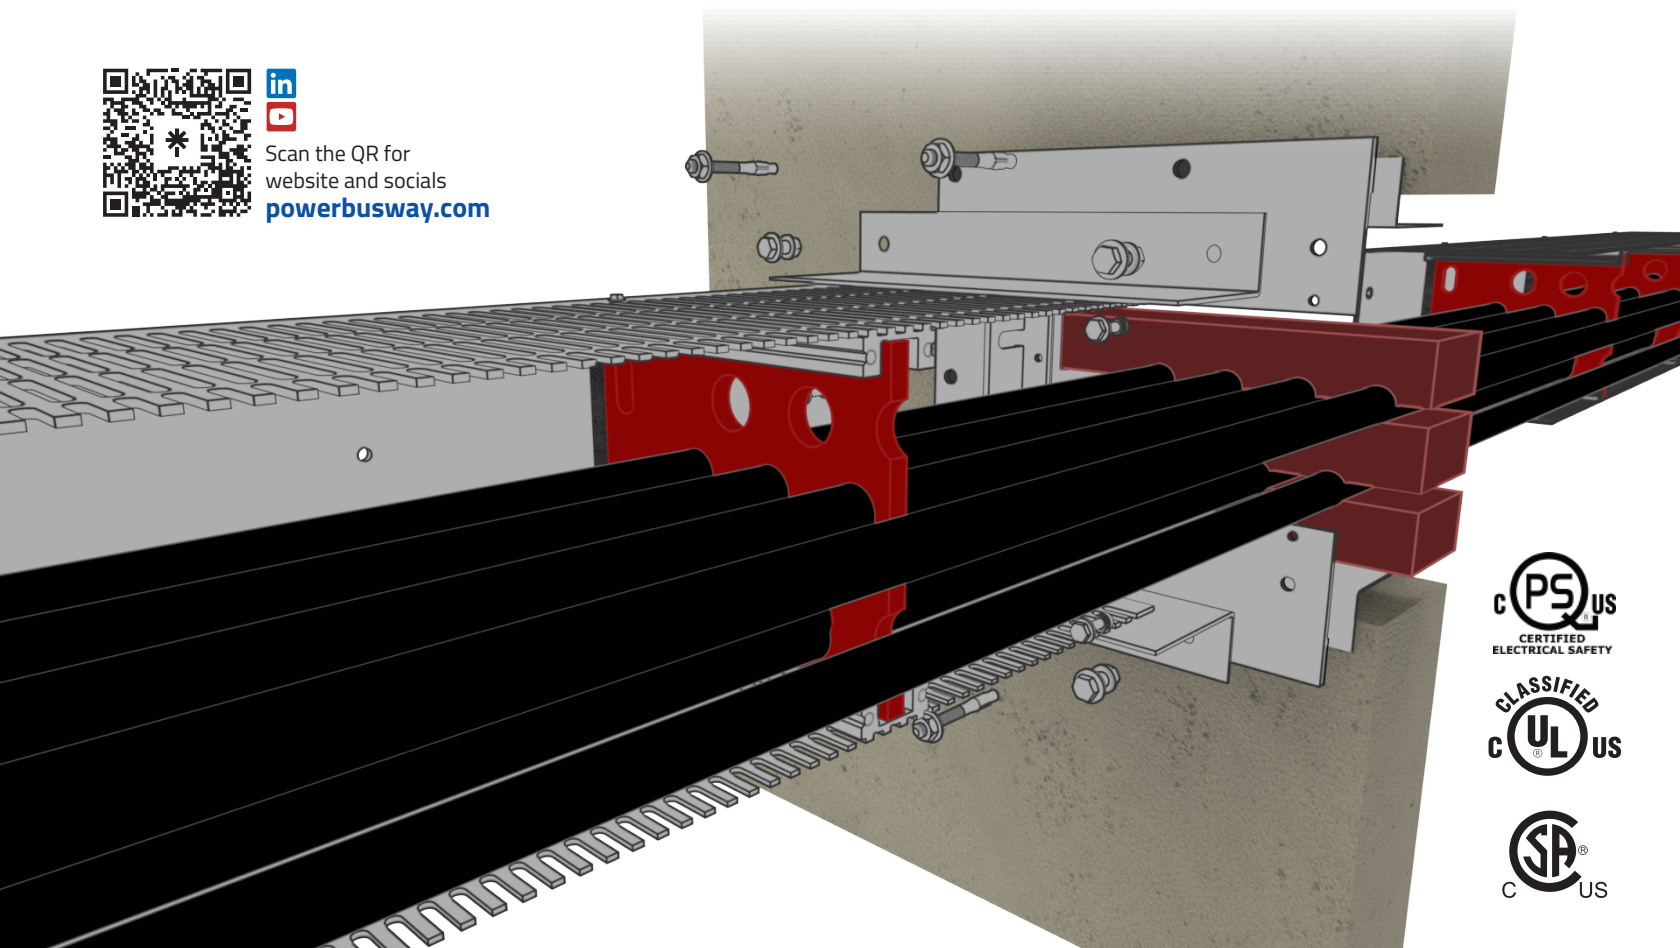

18-Month Warranty
